

Keyword Index

Aggressive Bound Descent	51
Artificial intelligence	10, 69
artificial intelligence	39
automated algorithm configuration	104
Backtracking Search	51
BCT	140
Belief Propagation	14
boolean satisfiability	27
branch-and-bound	104, 106
branch-and-cut	104
CNF	140
CNF encoding	27
Combinatorial optimization	10, 69
Combinatorics	10, 69
compiler optimization	109
Computing methodologies	10, 69
Constrained Single-Row Facility Layout Problem	21
Constraint acquisition	24
Constraint Optimization	51
Constraint Optimization Problems	86
Constraint Programming	14, 89, 92
constraint programming	60, 106, 109
Constraint programming	48, 83, 101
constraint satisfaction problems	39
convolutional autoencoders	27
counterfactual explanations	39
CSP	24
cutting planes	104
data-driven algorithm design	104
Decision Diagrams	21
decision diagrams	106
deep learning	27
Dial-A-Ride	36
Discrete mathematics	10, 69
discrete optimization	106
Discrete Optimization	21
Dominance Breaking	86
Dominance Relations	86
DQBF	74
Electric power network	101

Entropy	14
exclusion set	39
feature extraction	27
Filtering algorithm	48
generalization guarantees	104
Gini index	48
Heuristic function construction	10
integer programming	104
Knowledge Compilation	1
Large Neighbourhood Search	89
Lazy clause generation	48
linear constraints	120
machine learning	120
machine learning theory	104
masking	109
Mathematics of computing	10, 69
MDD	140
Mixed-Integer Programming	21
Model counting	24
Multi-Agent Path Finding	92
Music generation	83
NFA/MDD constraint	140
Patient Transportation	36
PB solving	60
power side channels	109
program synthesis	74
propagation strength	140
pseudo-Boolean constraints	120
QBF	74
Reinforcement learning	83
RNN	83
Robust Solutions	89
sample complexity	104
SAT encodings	60, 120
Search methodologies	10, 69
security	109

Sentential Decision Diagram	1
Sequence Variables	36
sequencing	106
Solution counting	24
Spread constraint	48
Symmetry breaking	1
Transmission maintenance scheduling	101
tree search	104
trustworthy AI	39
TSPTW	36
Variable Neighborhood Search	92
Variable Ordering heuristic	14
Vehicle Routing	36
